IMPORTANT DATES

September 12th Week - October 17th Week - 6 week fall outdoor practice schedule
NEW to 2022-23

October 24th Week - December 4th - OFF TIME

**CBT recommends at least 6 weeks off to allow players arms, body's and minds to rest, recover and get refreshed and ready for winter training* We will NEVER Practice 12 months straight in a calendar year - It is unhealthy for players.*

December 5th - December 21st - CBT Hitting & Arm Care Groups

**CBT players will be introduced slowly back into the game with basic CBT core principles on how we will play the game and practice - We will be doing hitting groups and arm care groups and get players acclimated to the CBT way. NEW in 2022-23.*

December 22nd - January 1st - Christmas Break

March 20th Week - New Youth Schedule Starts (more practices per week) - High School kids start high school practices

April 14-16 or April 21-23 - Potential first tournament weekend for 9U-14U

Other Important Information

Tryouts - Returning CBT players do NOT need to attend tryouts in July. Our staff already knows their strengths and weaknesses and we dedicate tryouts to the new players we do not know so we can get a thorough evaluation on them to be able to incorporate them correctly and appropriately into the program.

Winter Practices - we will always practice with at least 2 teams each practice, sometimes three. We do this due to time and space issues at the indoor facility and to keep player fees down. If we practiced with each team individually, player fees would increase dramatically. Time inside the facility in the winter is prime time and we have to fit a lot of things in in a short amount of time.

Fall Practices (6 week program)

Black and Blue Teams - If there are multiple teams in a particular age group, those teams will not be picked until at least after the 6 week fall practice sessions or into November and December. Players and families are asked to commit to the program and not to a particular team. The program is strong in general and we use the fall sessions to evaluate players even more and put them into more situations to allow for better evaluations to create teams that are both strong and have appropriate talent levels on each.
